ARIZONA DEPARTMENT OF CHILD SAFETY

FOSTER CARE/ADOPTION ASSESSMENT GUIDE

The Guide is a tool used by the Department of Child Safety (DCS) to assess your skills, experiences, stability, motivation, and other factors as they relate to parenting a foster or adoptive child. The assessment is intended to promote discussion and an exchange of information between you and the licensing/certification specialist. The goal of this information exchange is two-fold:

- ▶ To assist you in learning about your abilities to parent a child, and
- ► To assist the specialist in making recommendations regarding your application.

Completion of the Assessment Guide is necessary to assist the licensing/certification specialist in writing your Home Study. The information you provide during the assessment process will only be used by DCS to evaluate you for licensure/certification.

Please answer all questions in detail. You may complete the form electronically, on-screen, or print a paper version to complete by hand writing. Please write on the back of the page or attach additional pages, if necessary.

FOSTER PARENT TEAM PARTICIPATION RESPONSIBILITIES AND RIGHTS

Instruction: If you are applying for foster home licensing or for both foster home licensing/adoption certification, please complete this section.

The case plan goal of foster care is usually to reunify the foster child with the child's parents or family. The foster child's progress and case planning is reviewed and managed by a team of individuals. A team may include: family members, case manager, foster care licensing worker, counselor, attornev(s), foster parent(s), child, etc.

cas	se manager, foster care licensing worker, counselor, attorney(s), foster parent(s), child, etc.
1.	The law requires regular reviews of a child's progress in foster care. These reviews are usually held on weekdays during regular business hours. Examples of such reviews are: Foster Care Review Board (FCRB) meetings (twice each year), court hearings (usually twice each year), case plan staffings (usually twice a year), and team meetings Foster parents have a right to receive notice of most court hearings. Policy requires that foster parents be informed of Foster Care Review Board hearings, case plan staffings, and other team meetings.
	What is your reaction to active participation in-person, by telephone, or by written information, at court hearings and a these meetings?
2.	Regular visits and other forms of contact between a foster child and his or her parents, extended family, and siblings
	are essential, unless DCS and the court determines that they are harmful to the child, to achieve the goal o reunification. A visitation plan is required by law, policy, and best practice.
	What are your feelings about visits between the foster child and his or her family members?
3.	As a Team member, you are generally expected to have some interaction with the child's family members, such as written and telephone contact.
	What are your feelings about interacting with the child's family members?
4.	Foster parents are expected to provide routine transportation for activities that may include school functions, medica appointments, counseling, and visits with family members.
	Do you anticipate any problems meeting this responsibility for routine transportation needs?

How would you meet the religious preferences of a child placed in your home? How will you accommodate a child who chooses to not participate in your religious activities?
